BRIAN M. HAMILLA, PG, JOINS SKELLY AND LOY

Senior Project Manager Brings Expertise in Serving Commercial Clients

HARRISBURG, PA - December 19, 2018 - Skelly and Loy recently hired Brian M. Hamilla, P.G., a geologist with more than 30 years in consulting. Mr. Hamilla manages projects and performs business development for the firm's Geo-Environmental Group. His experience includes the fields of environmental, geology, hydrogeology, engineering, remediation, renewable energy, liability transfer of properties, demolition, and construction. As a Senior Project Manager, Mr. Hamilla has provided project management, technical consultation and client representation to complete various types of projects, including, but not limited to: Phase I and II Investigations, feasibility studies, Fate and Transport Analyses, waste to energy initiatives, wetland projects, geophysical investigations, and environmental cleanup, restoration, and permitting.

Mr. Hamilla's clients have included fertilizer manufacturers, the banking industry, petroleum companies (dealing with gasoline, heavier ended petroleum hydrocarbons, and heating oil releases), paper manufacturers, steel manufacturers, manufactured gas plants, as well as an array of other industries.

He earned a Bachelor of Science degree in Geology from Kent State and is a Pennsylvania Professional Geologist.

Now in its 49th year, [Skelly and Loy](http://www.skellyloy.com) is an engineering-environmental consulting firm serving public and private sector clients from six Mid-Atlantic offices. Our services include civil, environmental, and mining engineering and permitting activities; National Environmental Policy Act (NEPA) compliance studies; natural resource management and protection; hazardous waste and industrial hygiene studies and remediation planning; and cultural resource studies and documentation.
