## SKELLY AND LOY WELCOMES SHANNON N. EVANS, GEOLOGIC SPECIALIST

HARRISBURG, PA - September 21, 2018 - As a Geologic Specialist, Ms. Evans collects environmental samples and data for the performance of environmental site investigations, and conducts oversight and maintenance of remedial systems. She has collected groundwater and soil samples throughout Pennsylvania.

Ms. Evans has completed Phase I Environmental Site Assessments and waste site evaluations, performed title searches, city and state record reviews, aerial photography interpretation, site geology and soil reviews, topographical evaluations, and historical mapping reviews. She has also performed site reconnaissance visits and Pennsylvania Department of Environmental Protection (PA DEP) file reviews.

Ms. Evans provides environmental and construction oversight services during underground storage tank (UST) and aboveground storage tank (AST) removals and replacements. She has experience in closure sampling, documentation, and oversight of proper soil disposal. She is also responsible for monthly storage tank compliance visits, including cleaning and repair of the tank components, and documenting that records are being properly maintained both through the Veeder Root monitoring system and in the facility records.

Ms. Evans earned a Bachelor of Science degree in Geology and Environmental Science with a Geology concentration from Kutztown University. She is an active member of the Geological Society of America (GSA), Pennsylvania Council of Professional Geologists (PCPG), and American Institute of Professional Geologists (AIPG.)

---

Now in its 49th year, [Skelly and Loy](http://www.skellyloy.com) is an engineering-environmental consulting firm serving public and private sector clients from six Mid-Atlantic offices. Our services include civil, environmental, and mining engineering and permitting activities; National Environmental Policy Act (NEPA) compliance studies; natural resource management and protection; hazardous waste and industrial hygiene studies and remediation planning; and cultural resource studies and documentation.
