SKELLY AND LOY ADDS ENVIRONMENTAL STAFF IN HUNT VALLEY

Kevin E. Hedge, PWS, Brings 20 Years of Environmental and Regulatory Experience to Firm
Jennifer M. Egan, PG, Ph.D., is a Principal Scientist With 15 Years of Experience

Harrisburg, PA - May 26, 2016 – Kevin E. Hedge, Professional Wetland Scientist, and Jennifer M. Egan, PG, Environmental Compliance Specialist, recently joined SKELLY and LOY in its Hunt Valley office. Mr. Hedge and Ms. Egan are both currently working on the MD 219 mitigation project located in Garrett County, Maryland. The MD 219 realignment is proposed to improve safety and will run continuously between I-68 and the MD/PA line, providing much needed transportation improvement for this area.

Mr. Hedge is a wetland scientist, environmental /regulatory consultant, and project and team manager with 20 years of experience working on development, utility, and water quality improvement projects. He maintains a strong practical understanding of permitting and regulatory impacts on business and industry as well as regional watershed restoration efforts. Mr. Hedge earned a Master of Science degree in Environmental Management and a Bachelor of Science in Natural Resources Management from the University of Maryland. He is a Professional Wetland Scientist (PWS) # 1559 of the Society of Wetland Scientists, and a Code of Maryland Regulations Qualified Forest Professional.

Dr. Egan is a professional geologist with 15 years of multidisciplinary science and engineering project management and research experience. She provides technical and regulatory expertise and project planning and design with a focus on cost-effective and sustainable solutions for clients. Her experience includes holistic watershed management, planning, and research; hydrologic and hydraulic modeling; wetland delineation; stream and wetland design and mitigation; coordinating and obtaining local, state, and federal permits for engineering projects; and flood and stormwater project analysis and design. Dr. Egan holds a Master of Science in Geology and a doctorate in Water Science and Policy with a focus on legal and economic aspects of nonpoint source pollution in the Chesapeake Bay.

Now in its 47th year, **SKELLY AND LOY** is an engineering-environmental consulting firm serving public and private sector clients from six Mid-Atlantic offices. The firm's services include civil, environmental, and mining engineering and permitting activities; National Environmental Policy Act (NEPA) compliance studies; natural resource management and protection; hazardous waste and industrial hygiene studies and remediation planning; and cultural resource studies and documentation.
